About me

I'm software developer with experience in web development. I have worked for more than 4 years in technology companies in backend and full stack developer roles. I am responsible and kind. I consider myself a communicative person willing to work in a team, efficient in the achievements, goals and objectives set by the company.

Relevant Experience

Full Stack Developer @ Notus SpA

Oct 2021 – Present // Santiago, Chile

- Write modern, performant, and robust code for a diverse array of client and internal projects
- Develop projects with .NET Core and Django.
- Develop python modules with geospatial data like vector data and raster data and Arcgis integration.
- Build flows with Argo Workflows.
- Design and develop well-encapsulated external and internal architectures based on Docker and Kubernetes in the AWS cloud.
- Build CI/CD pipeline with tools like Gitlab CI and Github Actions.
- Communicate and collaborate with multi-disciplinary teams of engineers, designers, producers, clients, and stakeholders on a daily basis.

Backend Developer @ tuGerente

April 2020 – September 2021 // Santa Cruz, Bolivia

- Developed ERP system, python modules, Django projects, Node JS projects and React JS projects.
- Designed and developed distributed applications using sockets and web services.
- Built docker applications.
- Worked with a variety of different languages, frameworks, and content management systems such as JavaScript, React, Vue, Node.js, Express JS, Python, Django, Shopify, WordPress, etc.
- Developed automated tests with TDD.
- Developed integrations with external services such as Shopify, Woocommerce, Pedidos Ya, among others.

Full Stack Developer @ Ticketeg S.R.L.

February 2018 – March 2020 // Santa Cruz, Bolivia

- Developed payment platform and event management system.
- Designed and Developed web applications using Django and Ruby on Rails.
- Developed automated tests with TDD.
- Designed and Developed mobile applications with React Native projects on Android and IOS.
- Built Web Services such as SOAP, RESTful and GraphQL.
